

Ch. Skansen's Rembrandt II

Skansen Kennel

Pedigree Information

Ch. Skansen's Rembrandt

Biography

Rembrandt is a repeat breeding of our popular [Quidame](#). He looks and acts a lot like his older brother and gained his Championship by winning a huge Specialty - only defeated one time. Rembrandt is a magnificent dog to look at - in fact he looks a lot like Macaroni, his mother - who without question is one of Skansen's most popular girls. Rembrandt's sire is the beautiful import from Ch. Sieger V. Bergherbos who is a superb dog - 29 inches tall with the perfect working temperament.

We hope that Rembrandt will be as successful as [Quidame](#) who has produced many Champions, generally they are tall, long legged with superb heads, long, clean, elegant necks - a very elegant Giant.

When Rembrandt matures we will continue his show career, till then he will be used for stud here at the kennels.
