

Ch. Skansen's Truman

Skansen Kennel

Pedigree Information

Ch. Skansen's Truman

Biography

Truman was born on April 16, 1995. He came from a large litter of mostly females - his only brother lives in Guatemala. His sisters are all excellent and winning all over the United States. Truman has been shown only four times with four Winner's Dog + three majors for ten points including two Best of Breeds over Specials.

I felt that a male from this combination would be a superb stud dog and so decided to keep Truman. If you look at his pedigree you see that his sire **Lucas**, our import from Spain. **Lucas** is, without question, one of the top stud dogs I've ever used. His pedigree includes my all time favorite dog, Ch. Aslan V. Montecristo, sold to Italy for \$50,000, as well as World Champion Friper and the Int. Ch. Nilo V. Bergherbos who lives in Finland and has sired some of Europe's top dogs. **Lucas**' little brother won the World Show in Brussels, Belgium in 1995 and Lucas himself won our U.S. National in 1993. A superb

pedigree.

The dam of Truman is my very special house pet [Ch. Skansen's Russian Roulette](#), a very Large female who finished her title very quickly. [Roulette](#) is extremely intelligent, athletic, good-looking, and fun. She is admired by everyone and is a great friend of mine. She is of course, the daughter to our other top stud dog [Ch. Skansen's Quidame](#) - a tall elegant male by our Dutch import Ch. Sieger V. Bergherbos and my other house pet Macaroni -who is also very special - both beautiful and full of character. She won Winners at our national in 1990. On Roulette's damside you'll see the top winning Giant in the history of the Breed, [Ch. Skansen's I Have a Dream](#), as well as the two top stud dogs [Gentleman Thief](#) and [Handsome Stranger](#).

We expect the pups from Truman to be large and athletic, with excellent heads, shoulders, top lines and movement.
