

Ch. Skansen's U.P.S.

Skansen Kennel

Pedigree Information

Ch. Skansen's U.P.S.

Biography

U.P.S. was born May 12 1996 - in a litter of 4 males - each one bigger than the next. These pups had super long legs - wonderful, elegant heads, great toplines and tailsets and wonderful characters. So we decided to keep a male and female and they are BIG! Their mother, Am & Int Ch. Skansen's Russian Roulette is also very big - she is also very intelligent and beautiful, my own personal house pet and guard. Their sire, Ch. Skansen's Northern Lights, is one of our top producers - most famous U.P.S.'s 1/2 sister Am. & Can. Ch. Skansen's Status Quo - who won the National 1996 and in 1997 won

over 40 All Breed Best in Shows, making her the No.1 Giant female of all times in Best in Show wins. Roulette is also a top producer - a male from her last litter, Ch. Skansen's Tornado, has won 8 All Breed Best in Shows before 2 years old and is a Champion in 8 countries.

U.P.S. is turning out to be another top stud dog, as I expected with his great pedigree. You will notice that all his ancestors in the next four generations are Champions with the exception of Nenevale Be - A - Charmer - an English import that I never showed, as she was cropped late and her ears never stood. She was, however, a top producer with over 10 Champion offspring and lived to be 14 years old. The other one is Oasis - Roulette's mother - also never shown - even if she was beautiful and could easily have gained a Championship. U.P.S. has excellent hips - and his pups seem to inherit his size, as well as his happy - go - lucky disposition.
